
Jordanian Set For Nubian Monuments

From the Hashemite Kingdom of Jordan will come a set of three dedicated to the "Save The Nubian Monuments" theme for which many other nations have produced stamps. According to the Rev. John D. Zimmerman, the day of issue was August 1.

Denominations are 4, 15 and 25 fils. Nothing is known about the designs or the colors in which they appear.

The Nubian Monuments of Egypt are those to be removed to another resting place since the original site will be completely inundated at the completion of the Aswan High Dam.
